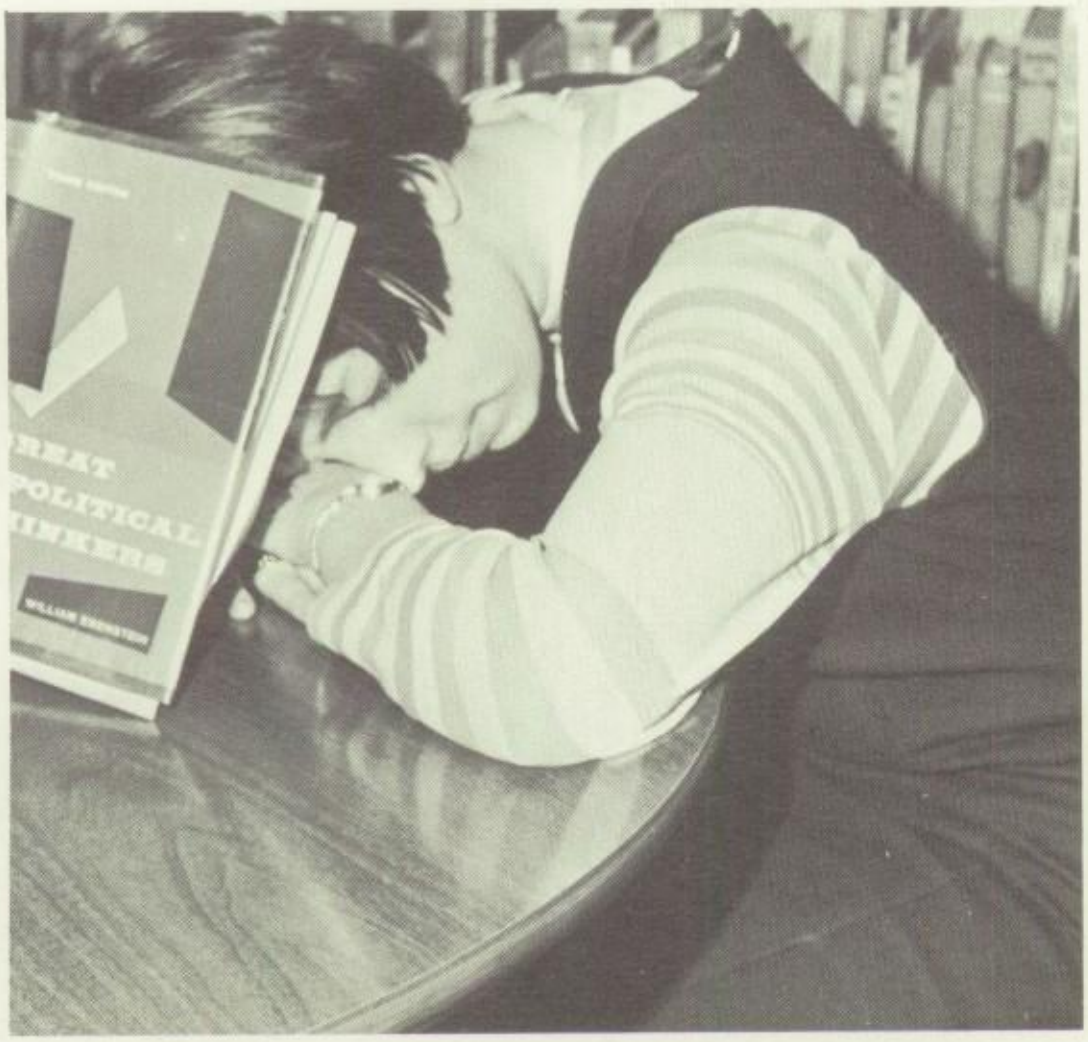
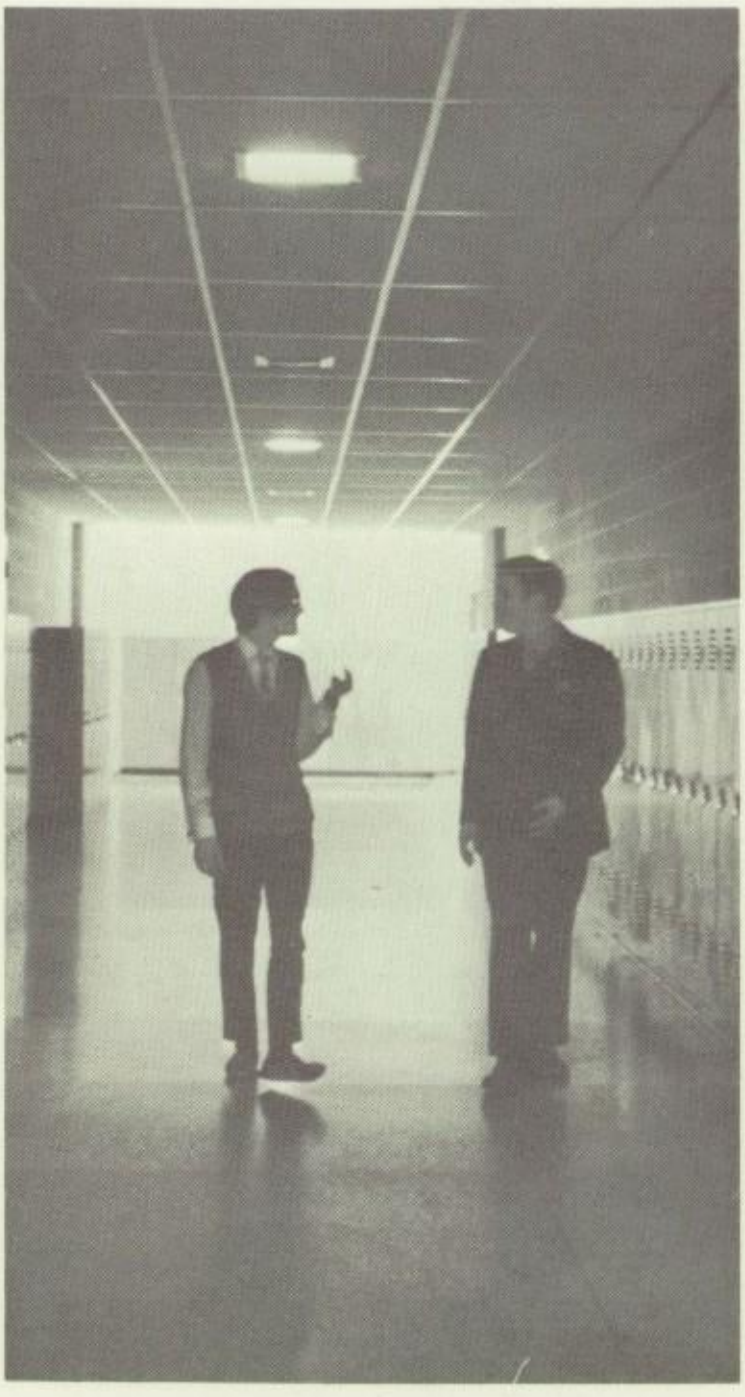
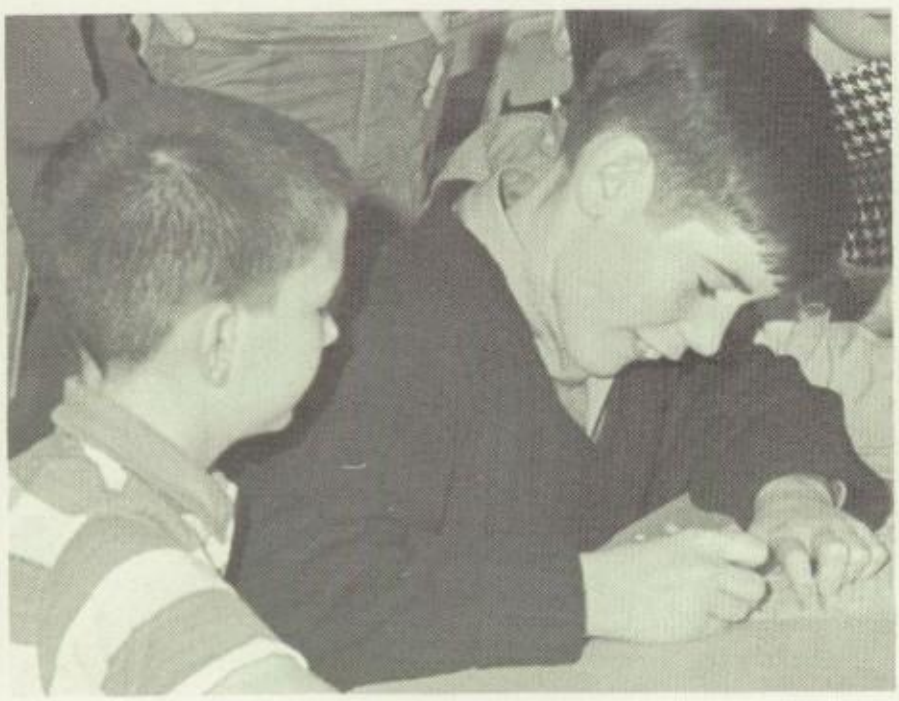
. . . A NEW DAWN



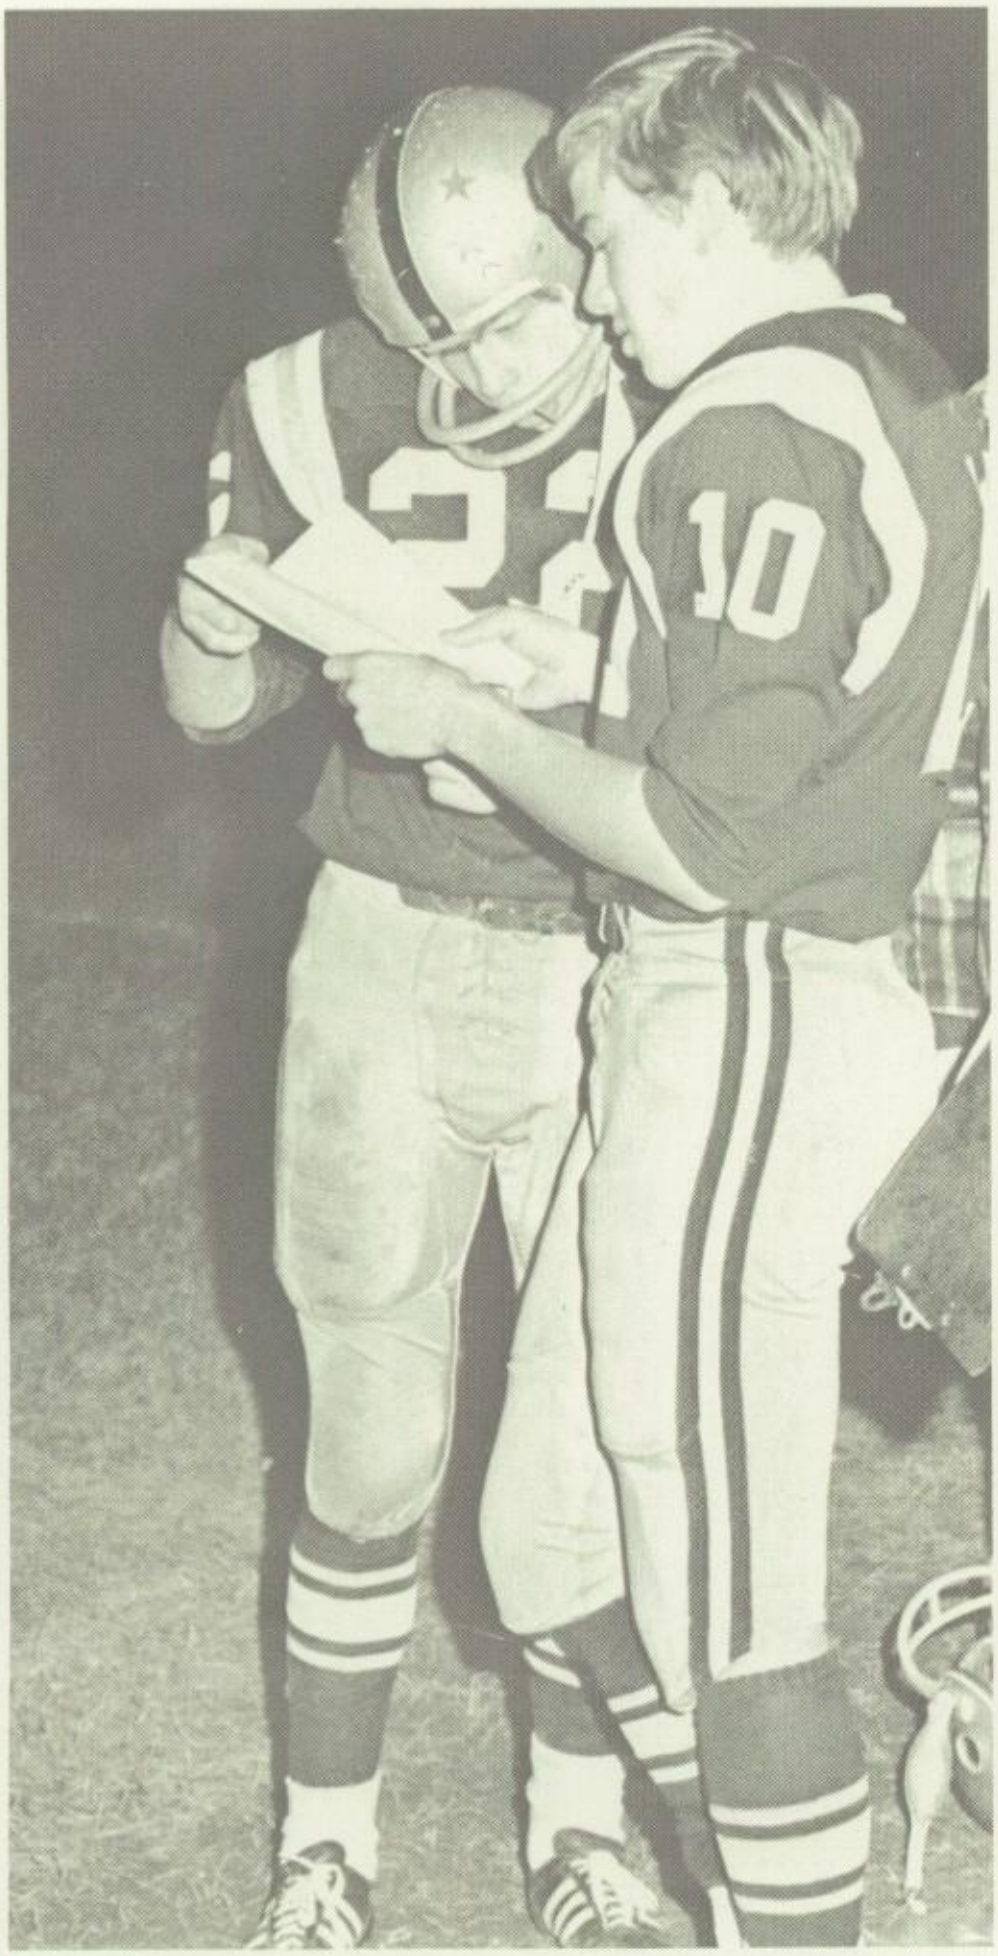
A NEW DAY,

A NEW DECADE.





Dawn is the beginning of anew,
Knowledge is the dawning of
Understanding of
Today, yesterday, and tomorrow.
Learning comes in three flavors
Elementary, junior high and
Senior high.
We have to take a bite
Chew it several times
And digest it thoroughly.



A day . . .
A period of sunlight —
Of youth
"Mighty martians!" contains
Cries of spirit and youth
Of boiling blood pressures
And the pulsating excitement
Of competition
Of victory, washed into
The brain
And the depression of defeat.

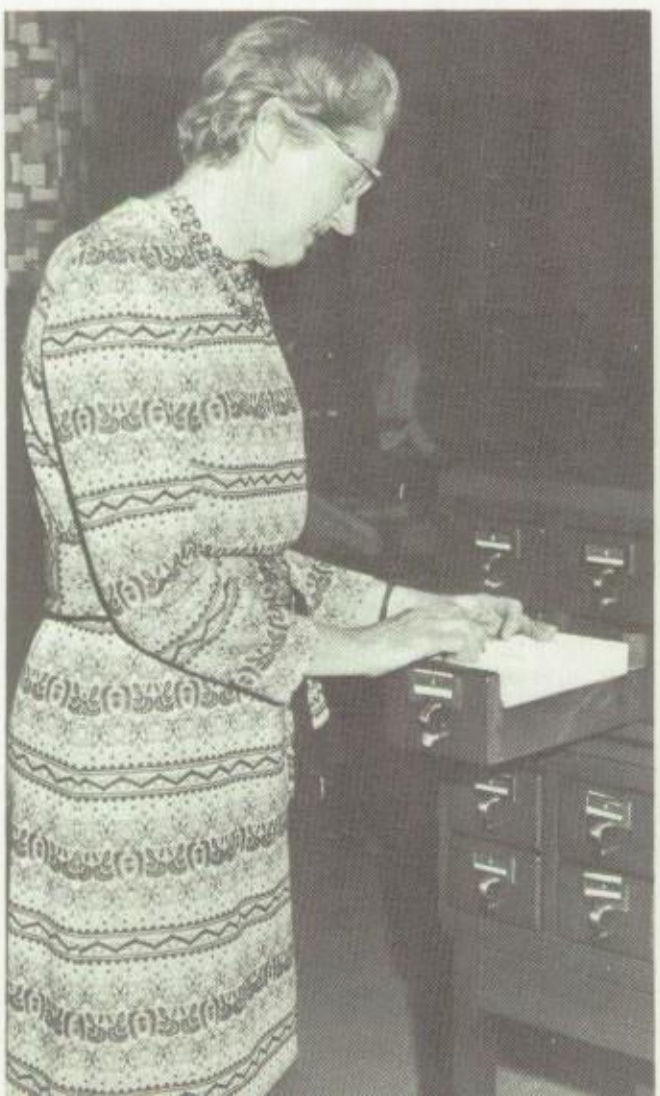
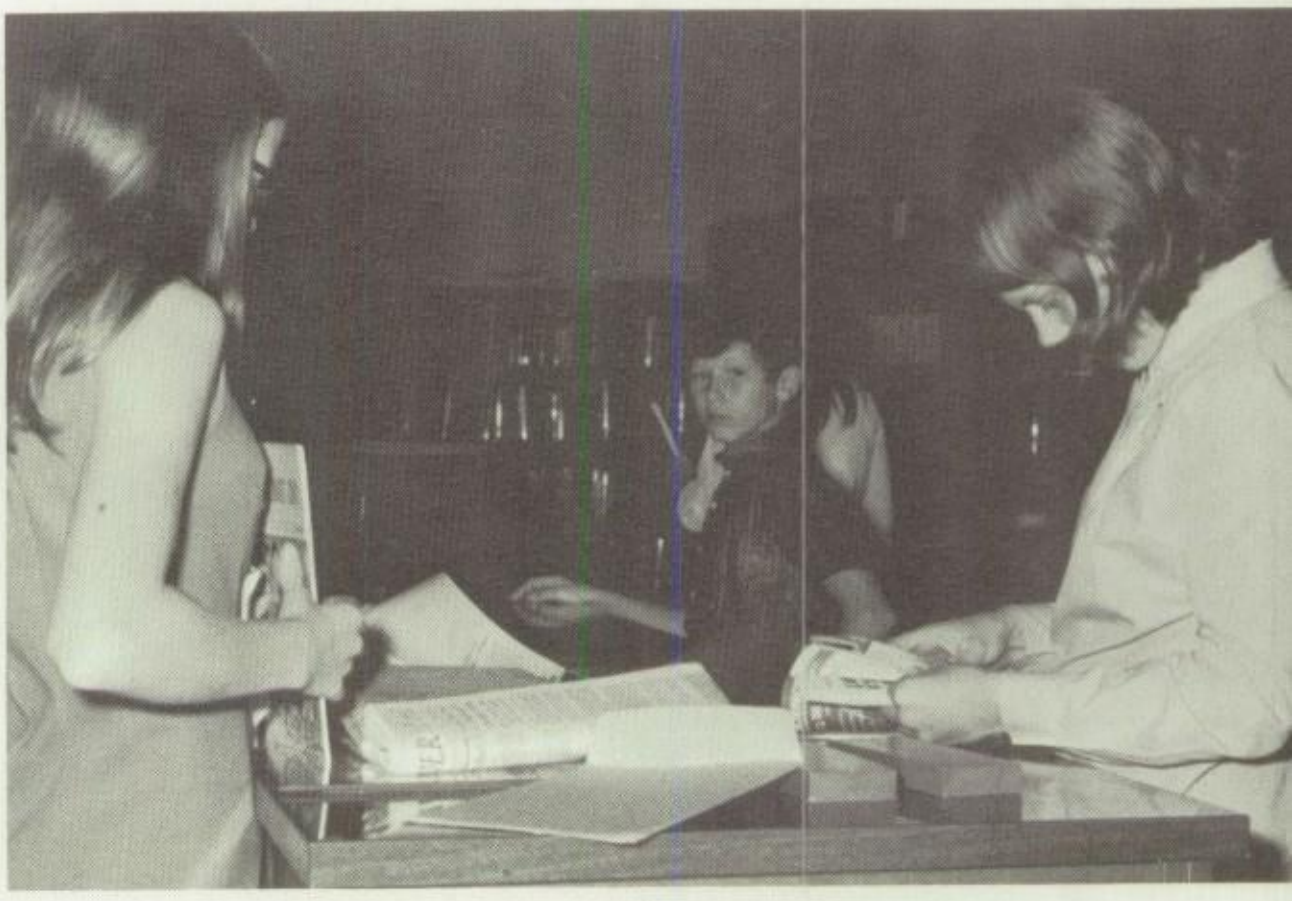
A NEW DAWN





A classroom, a teacher, a student is academics

Academics is a teacher and the class he or she teaches, a teacher and a student, a student and his classmates.

Learning is understanding what is being taught, learning is listening and comprehending. And happiness is accomplishing a tough assignment and meeting a goal you set for yourself.

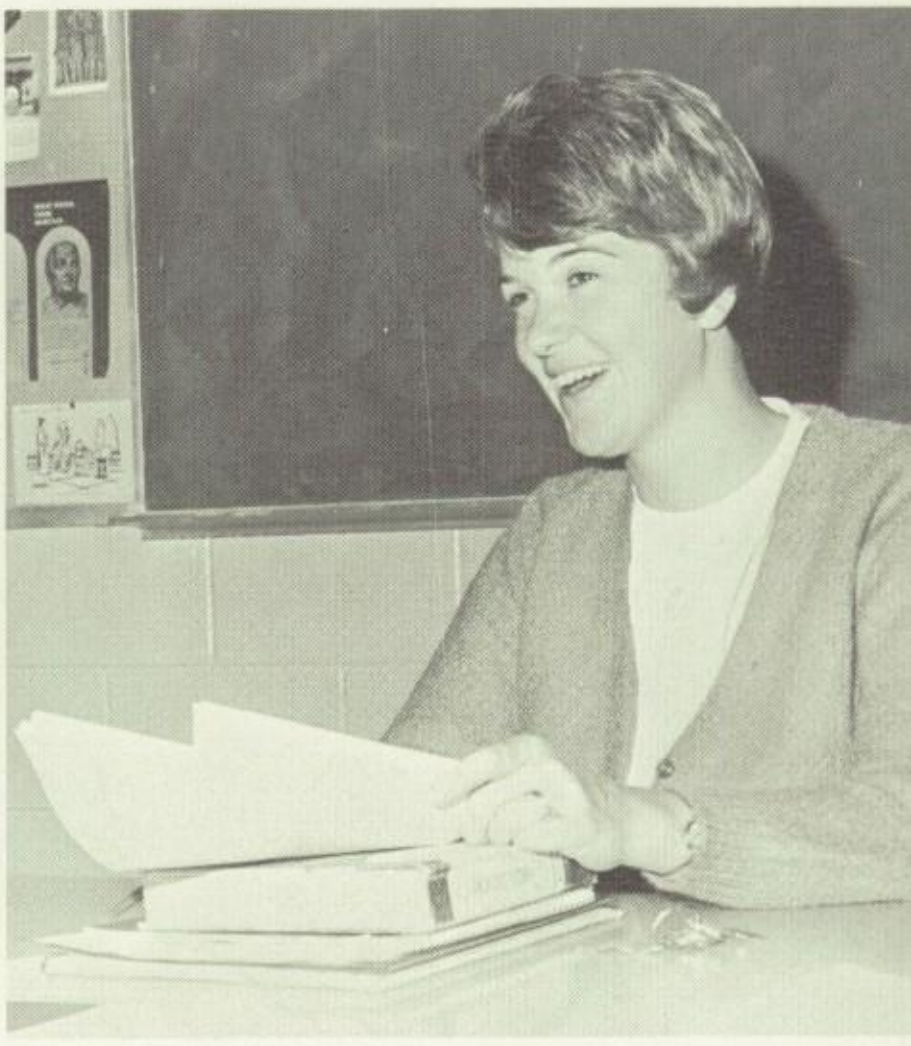
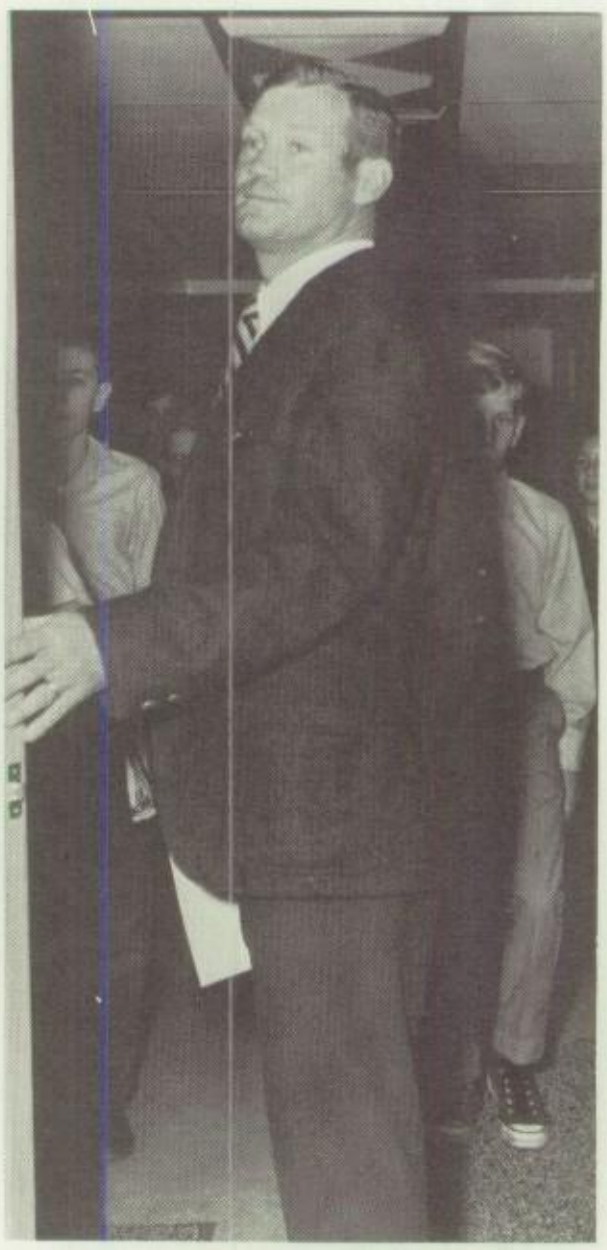
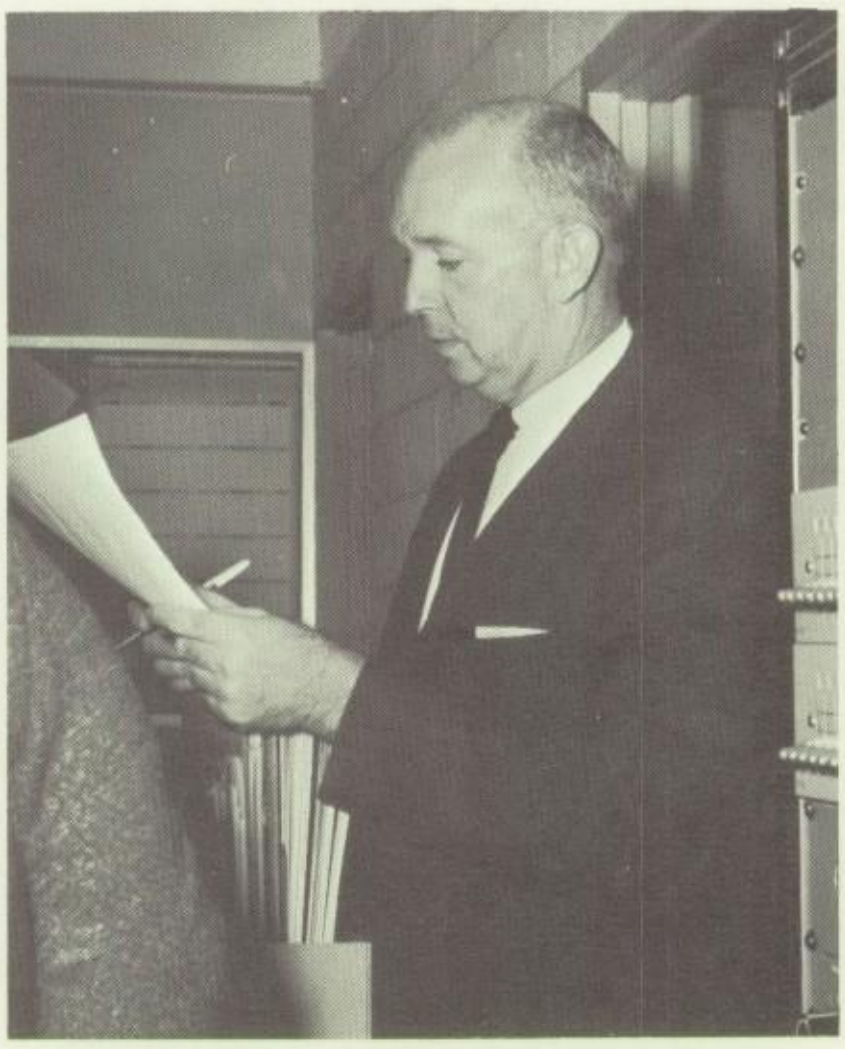
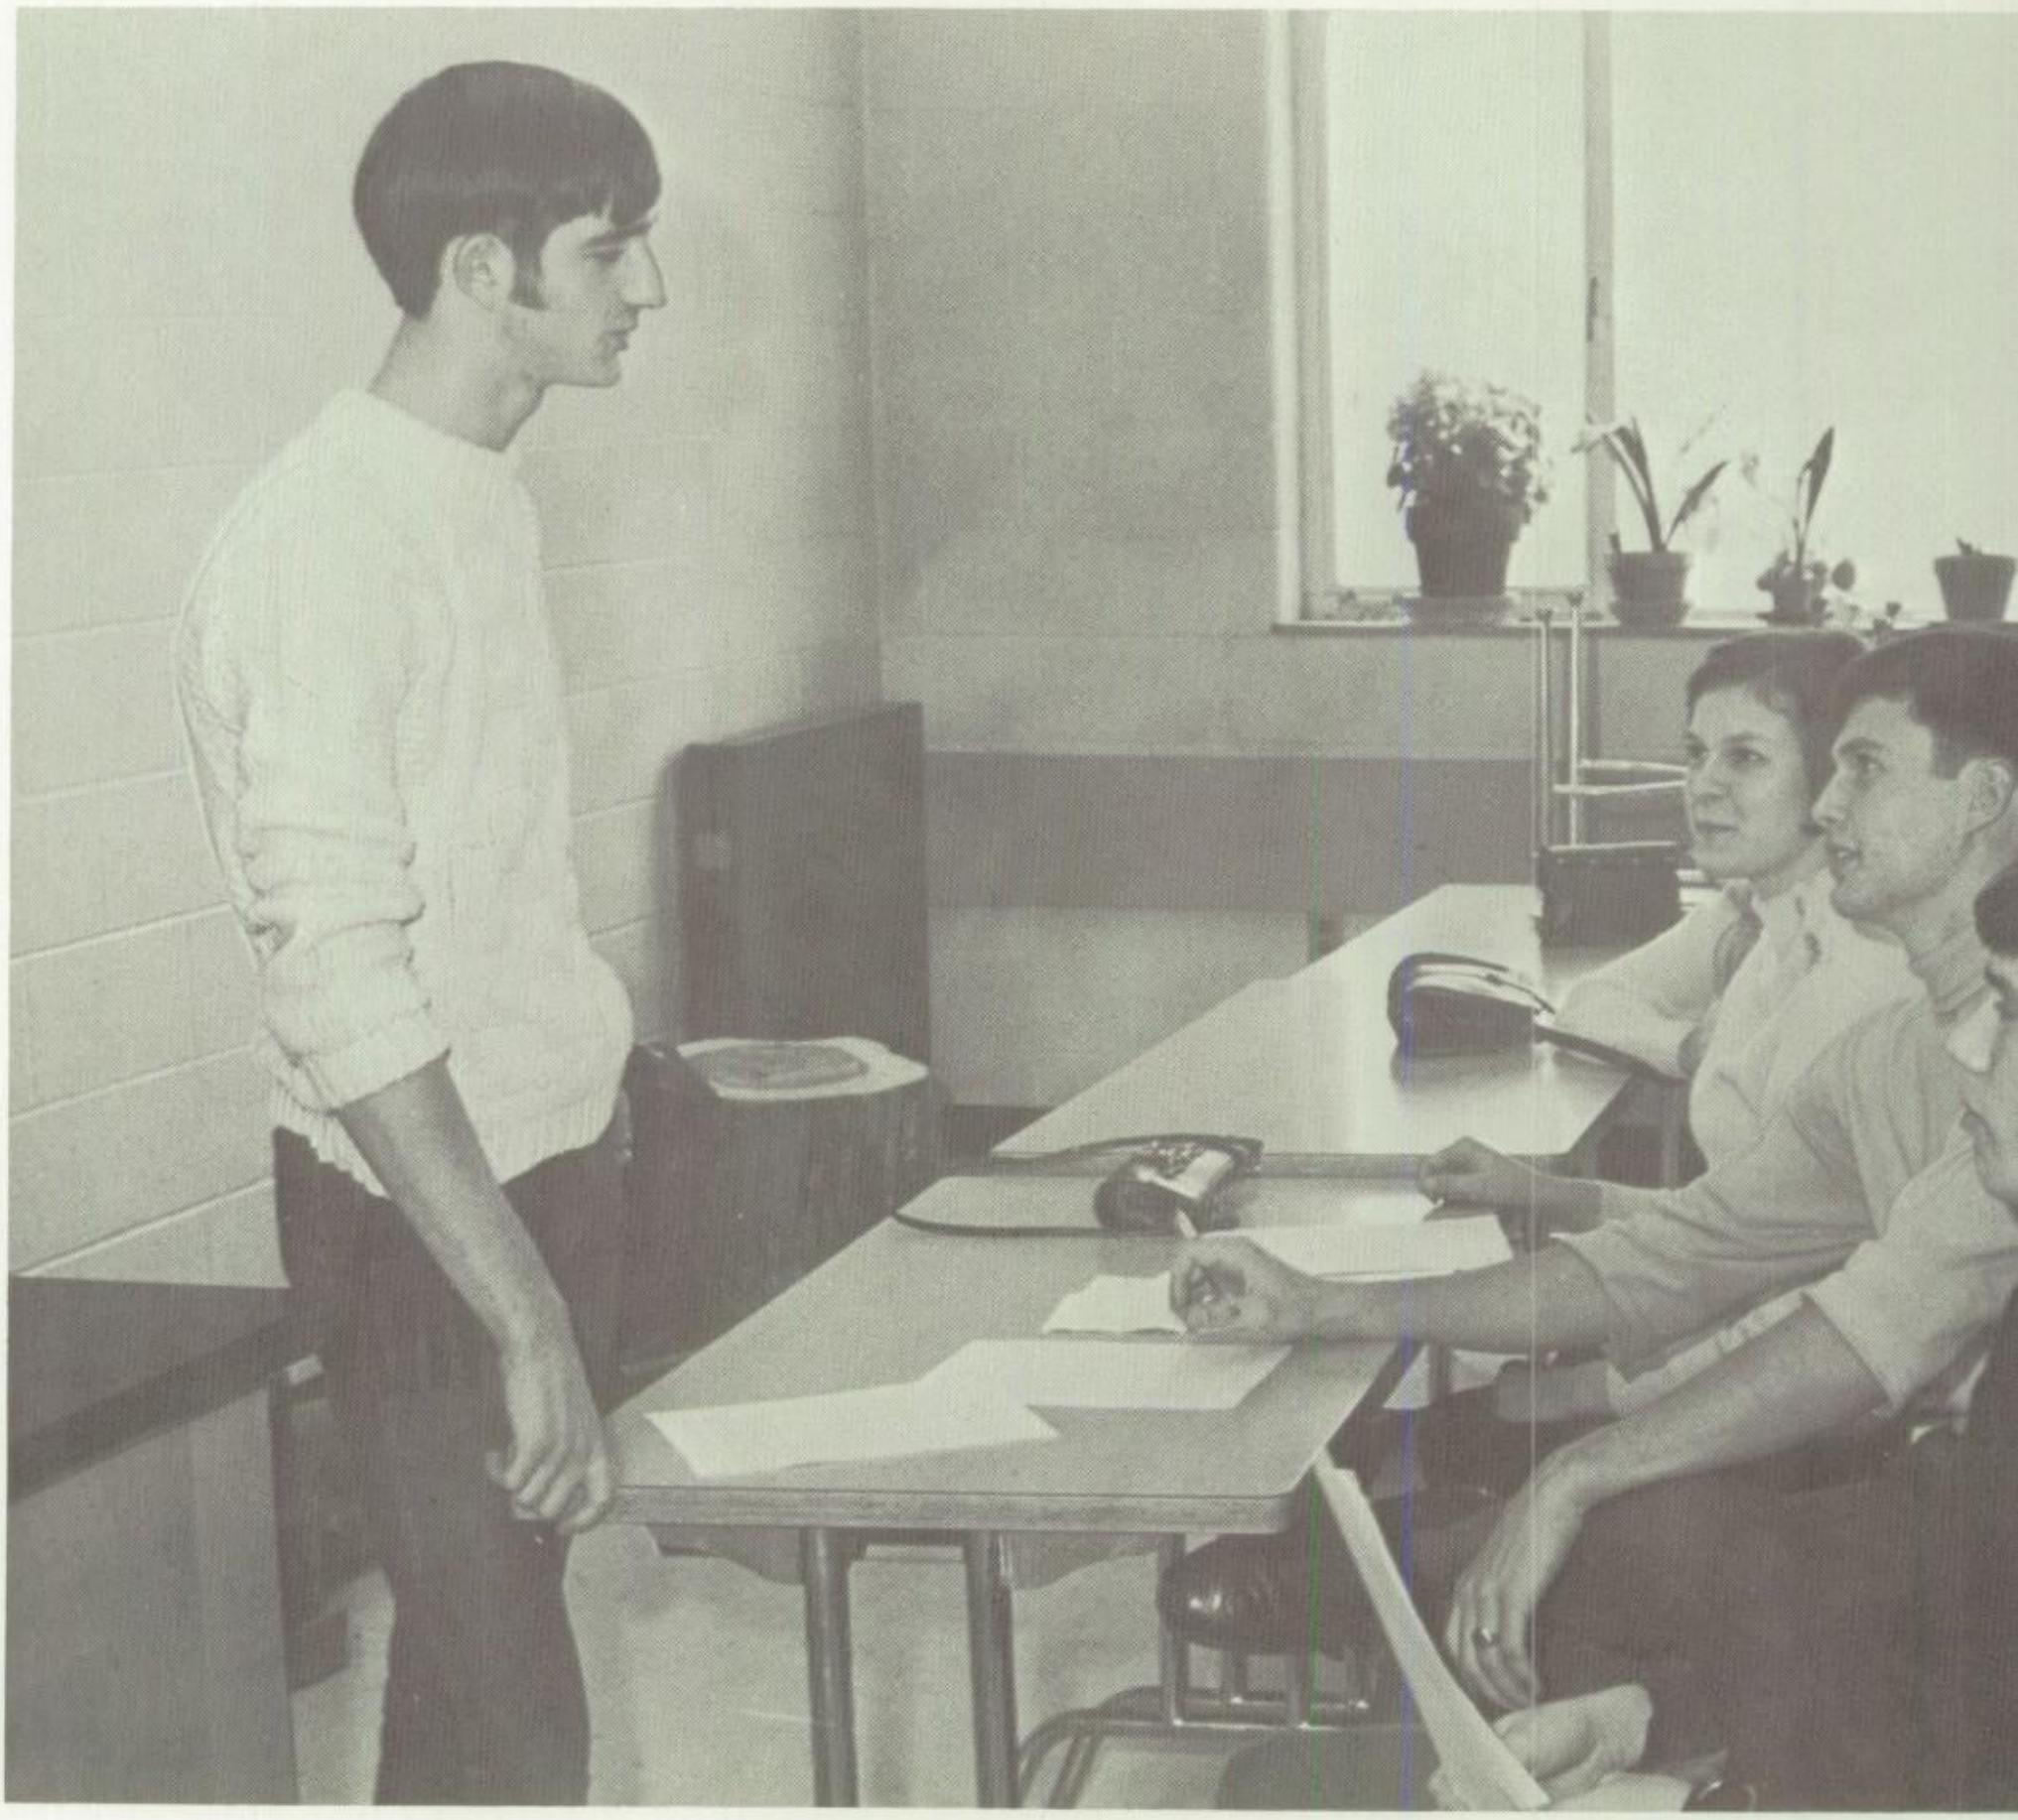
Social science focus on men — past and present



Administration is backbone of GHS.







ORGANIZATION

Elected by the student body, student council officers and members promote extra-curricular activities and participate in governing the school.

The big issue of the year was the pledge of allegance---should this tribute to our country be discontinued when it seemly becomes meaningless and misused. Opinions flared on both sides as the student body voiced their views.

This year the council sponsored a very active athlete and intelligent Swedish exchange student, Per Gardsell. Among his memories to take home, is a trip to the Sugar Bowl in New Orleans, won by selling SPORTS ILLUSTRATED in a magazine contest.

Council officers are at the LEFT G. Thompson, vice-president; K. Rockafellow, secretary; M. Alexander, reporter; E. McConnaughey, treasurer; and C. Ash, president.

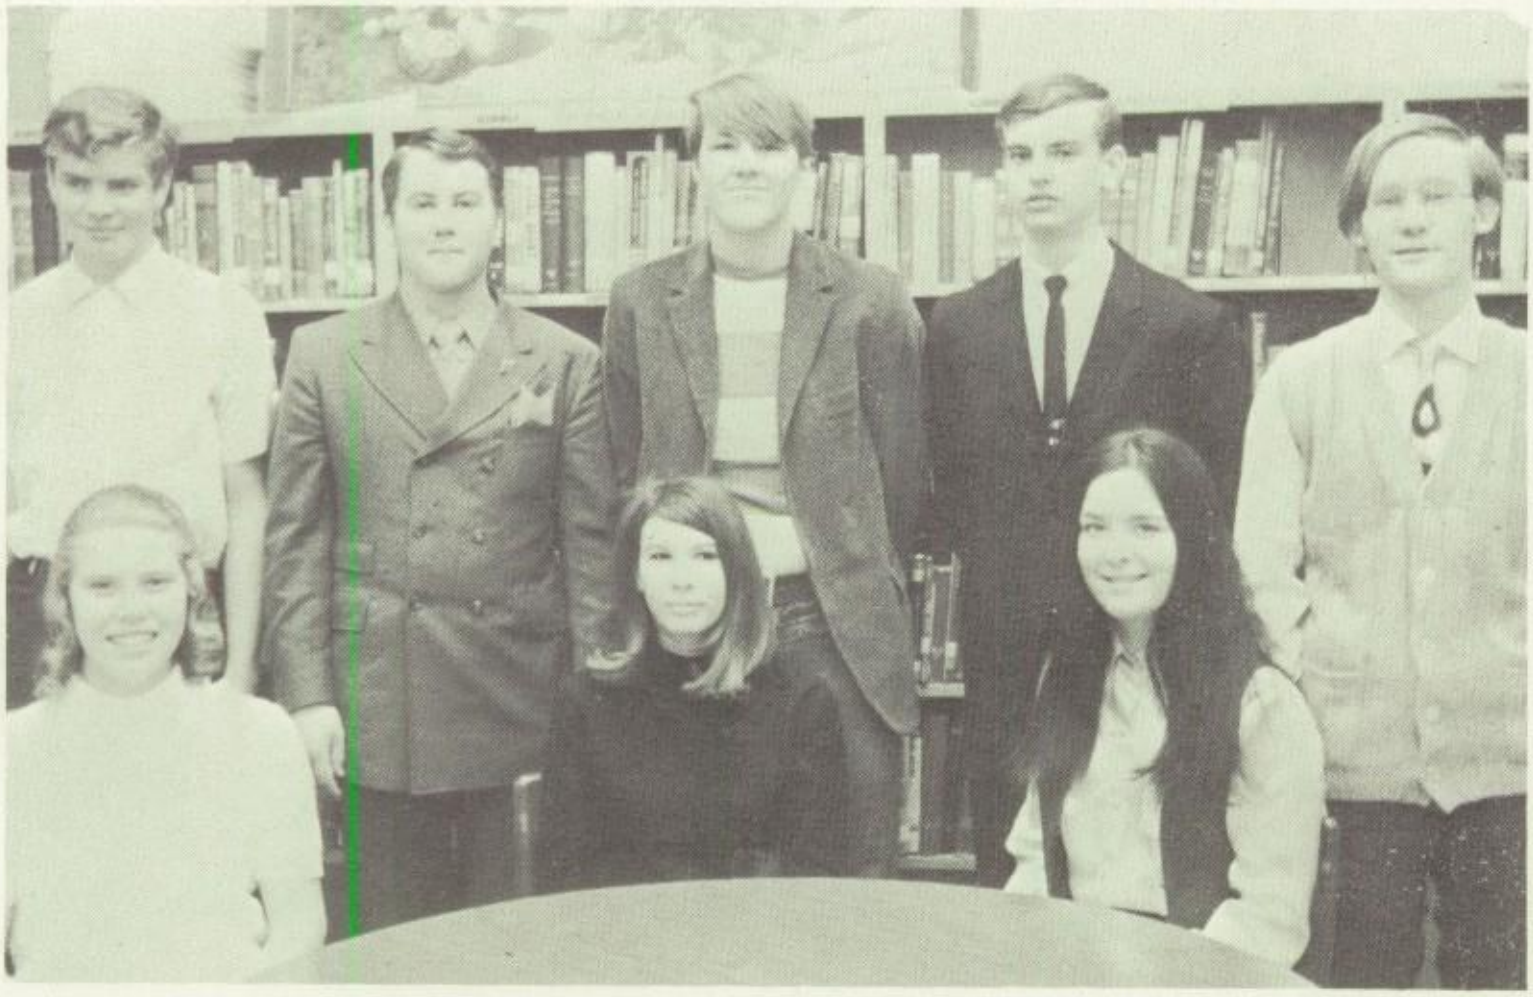
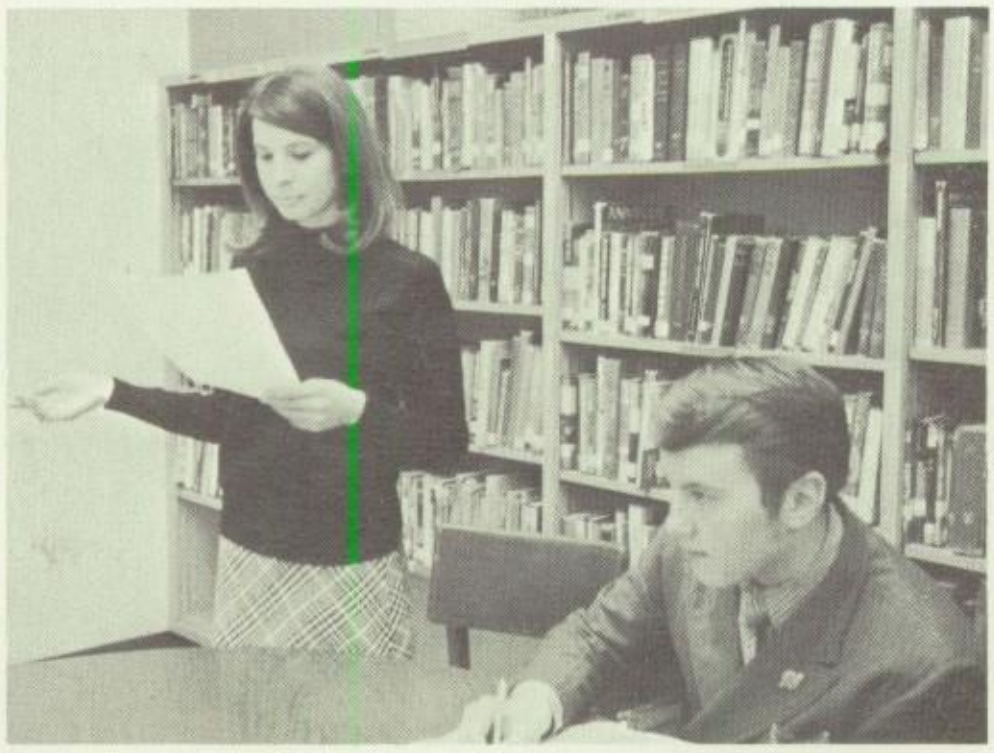
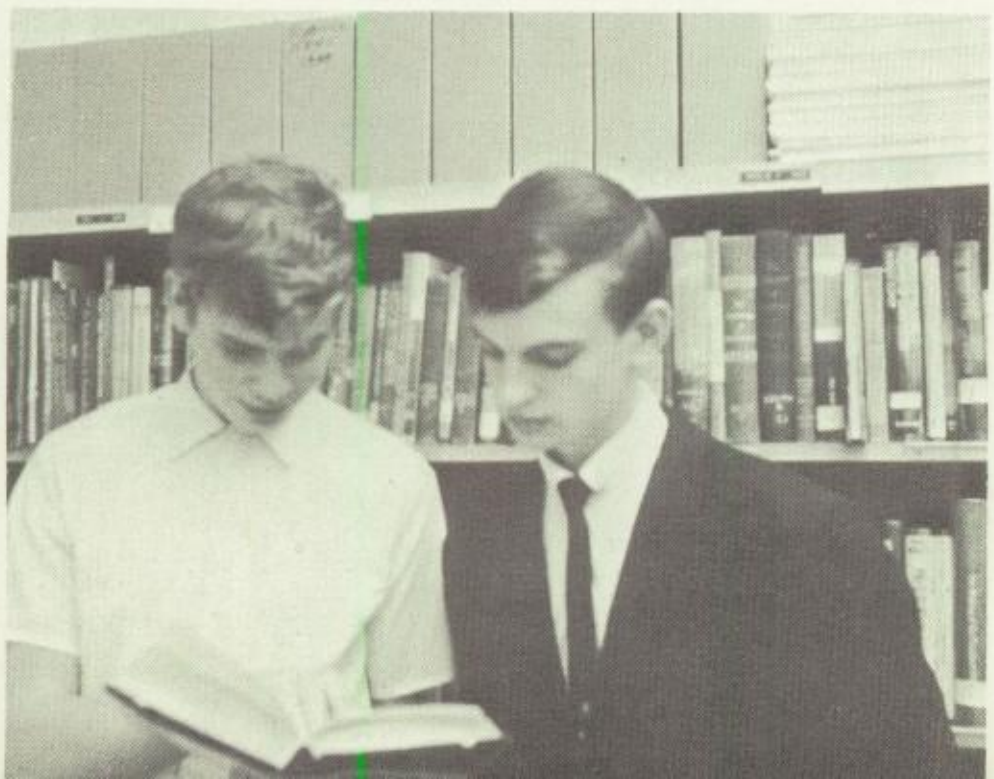
Debators repeat district championship







Goodrich is proud of its outstanding 1970 Varsity Debate Team. Competing against only Class A schools, the team still finished second place in the Genesee County Debate League. The negative unit of Greg Mann and Janet Teed stood undefeated, being the best negative unit in the district, with Greg also finishing in second place in individual scoring. The debators also were District Champions for the second straight year.

Goodrich's Varsity and Junior Varsity Debate Teams have participated in twenty tournaments, competing against the best Class A teams in the state, and winning more than fifty per cent of the debates.

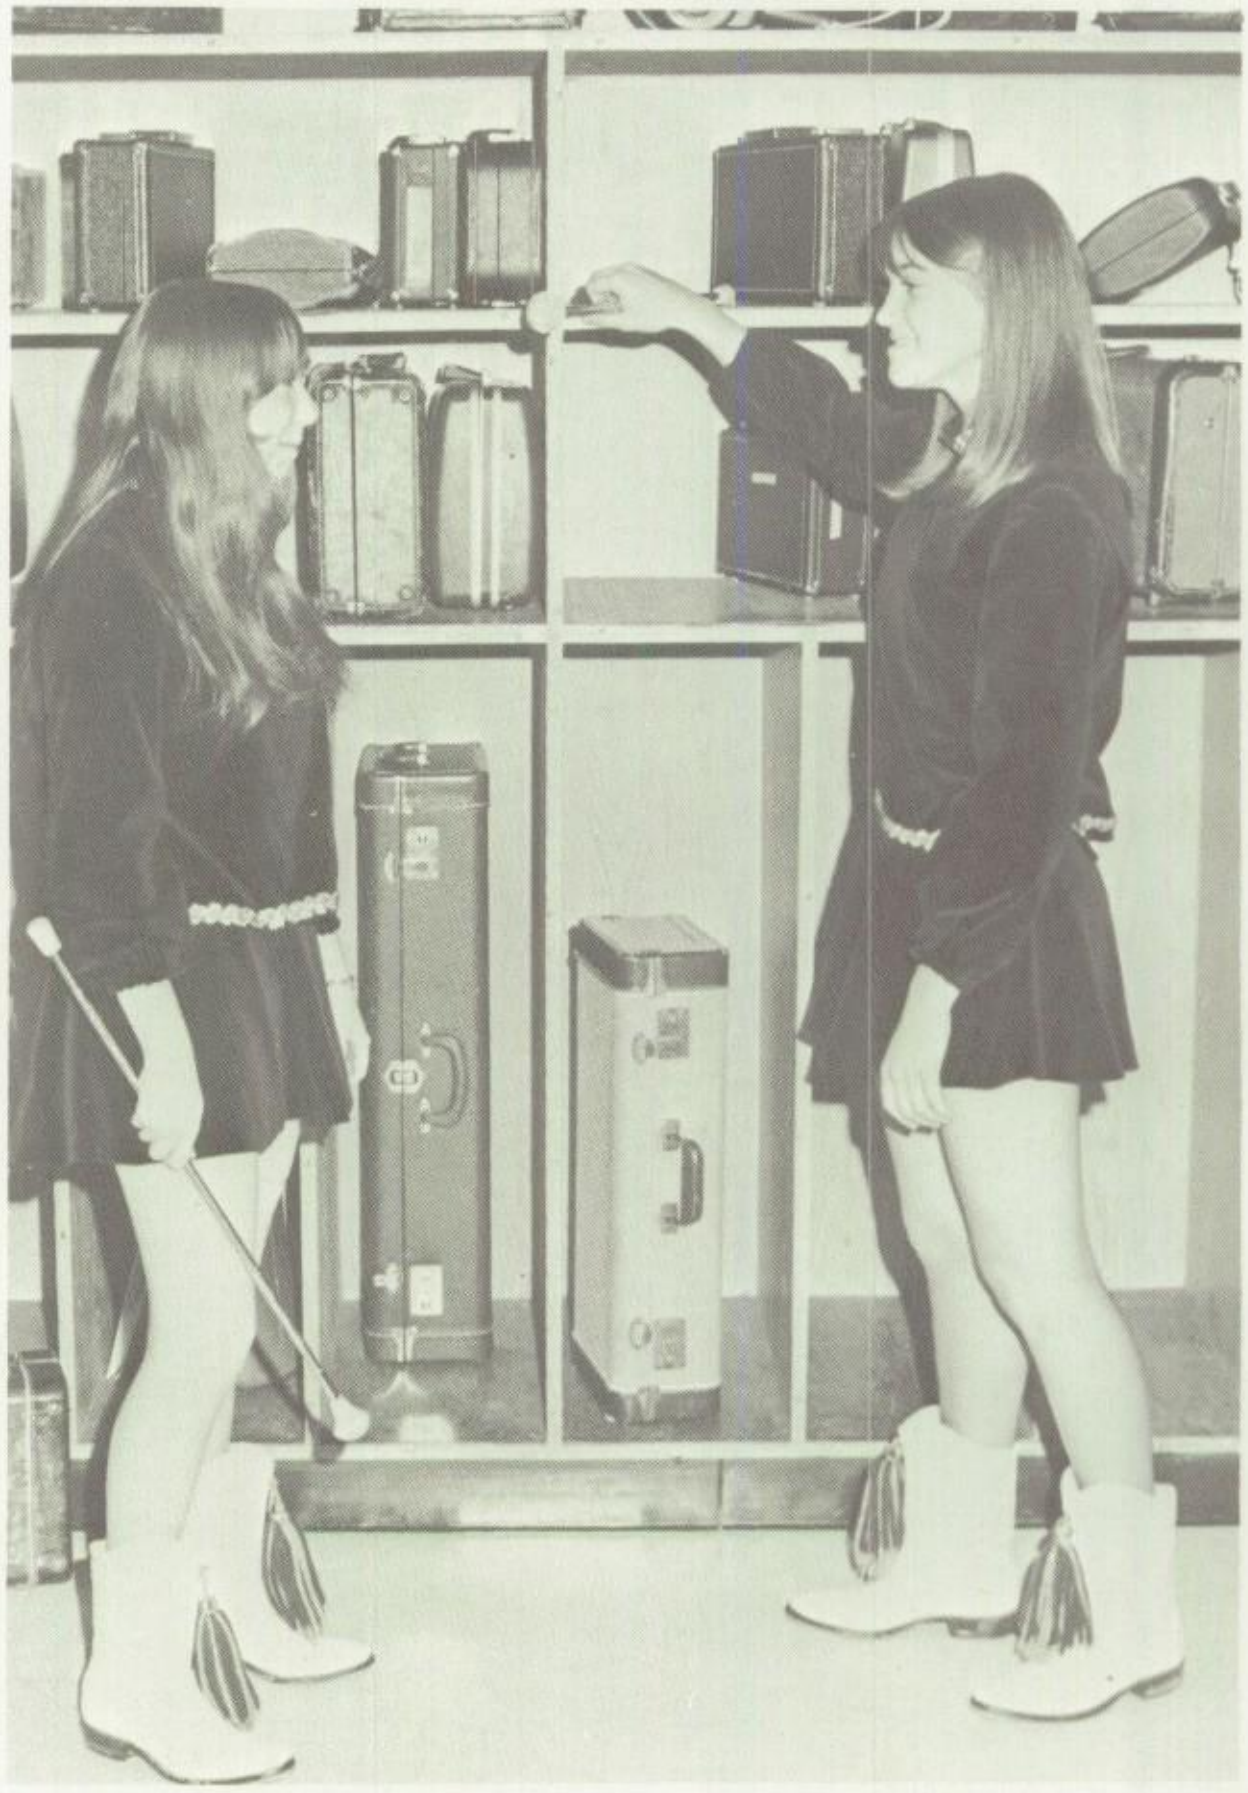
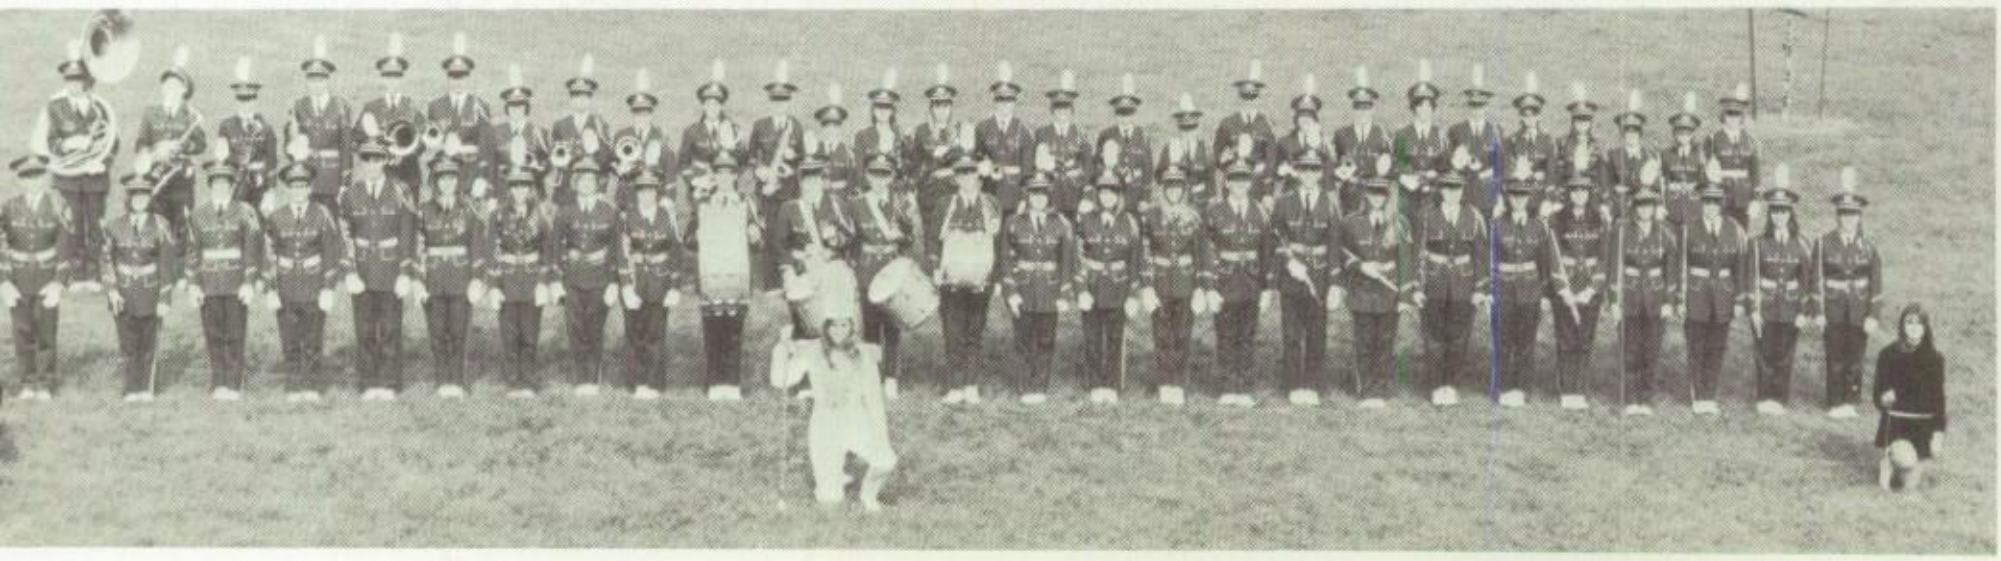
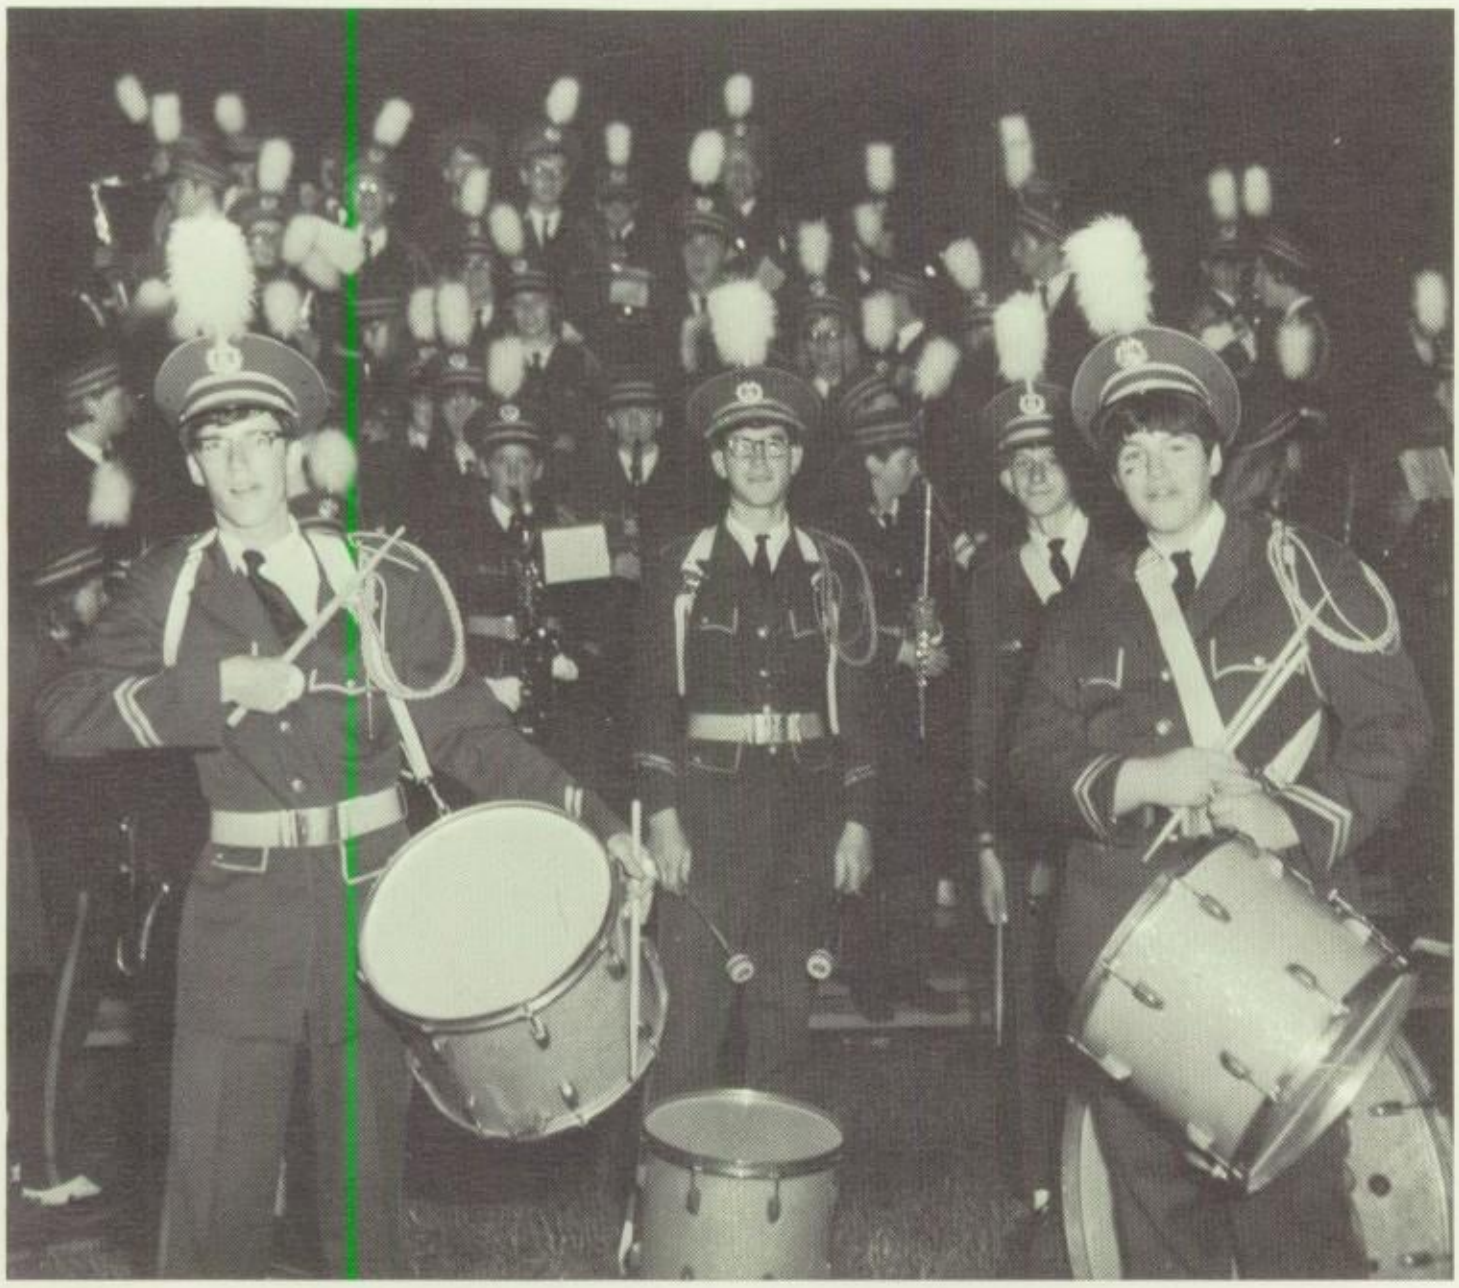
Marching band trudges through, regardless of the weather

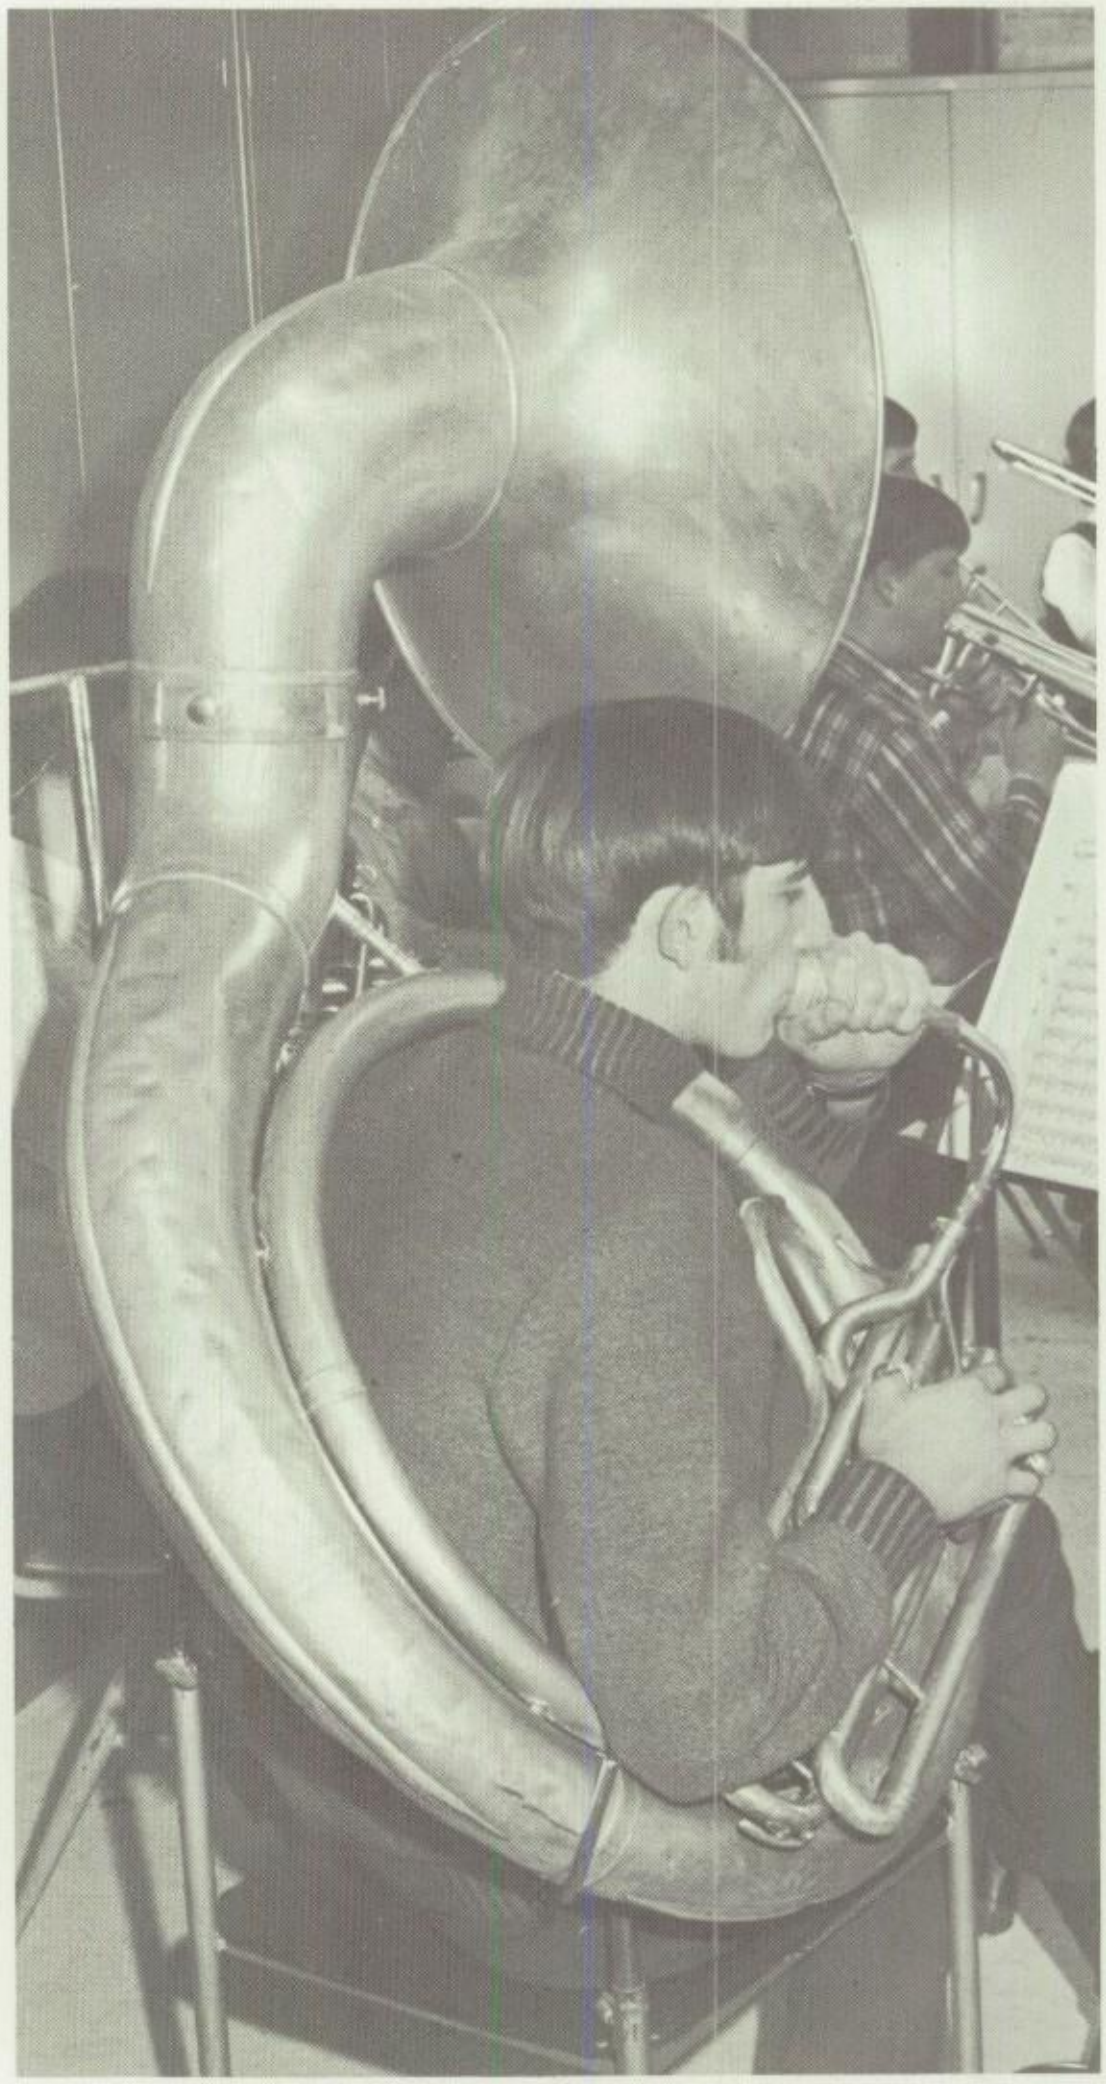


Marching, practicing every day, waiting for the home game on Friday in order to perform, the marching band's biggest parade event is Homecoming. The band has sometimes only a week to prepare a rhythmatic marching scheme, but with constant effort, their audience is always pleased.





Concert band meets stiff competition



The music returns to the indoors as the concert band begins to practice. Every member contributes his talent and devotes time to teaching and preparing himself.

Though competition is stiffening, the concert band is planning to score high in spring contests.

ATHLETICS

Athletics, the most important and popular of the extracirrculars, collects more interest and people than any other activity.

Boys and girls both devote time and energy practicing for perfection. Competition gets tough and individuals learn to think as a team. Trained bodies learn to react instantly and hopefully correctly. This year, athletes were aided by the use of the new Vido-Tape machine which photographs games and replays them for criticism.

Mr. R. Larson stepped in as Athletic Director. Much hard work goes into making the sport season run smoothly. The Varsity Club helps by selling concessions at basketball games.

"Dale Herman receives snap from center, drops back and fires a twenty-five yard aerial to Gary Allis. Allis sprints madly for the goal line; Goodrich scores six!

Confidence, willpower, pride, and everlasting ambition--the active ingredients that create the final product--the 1970 Martian team.

Beginning practice with soccer in the summertime, practice twice a day prior to the opening of school, the guys shape-up and prepare themselves for a tough football season. With early curfew and stiff regulations, they don't have too much time to train themselves for anything but football.

Defeated only twice, the varisty team captured second place and had three seniors elected to ALL-County, Gary Allis, Don Ferguson, and Greg Schmiedeknecht.

Janet Munger crowned queen

The queen, her court, the band, a parade, the game, Goodrich defeats Whitmore Lake, the Homecoming dance with Johnny Irons...

October 3, 1969, a date seniors will remember as their last Homecoming. Its a date that Janet Munger will recall as she returns next year to pass on her glory to a new queen, and October 3 is the date of the Martian Homecoming victory. Each class, proud of the float they have worked weeks on, will be more experienced in float-building and will present an even better-looking one the following year.

Basketball team deals stiff competition

"Dribble it, pass it, we want a basket! We want another one just like the other one, go, team go!!"

The demands of a team are tough when a thick crowd is shouting their satisfactions and dissatisfactions and is offering several suggestions in between. The team may not have succeeded in every aspect, but the competition was tremendously tough.

Although a won, loss record would not show it, the Varsity basketball team took the biggest step toward a future championship by gaining experience. Playing each game, the next displayed remarkable improvements in speed and technique.

The regrets were with the senior members, however; who will not have a chance to retrieve a victory in "71". But the juniors will undoubtedly pull through.

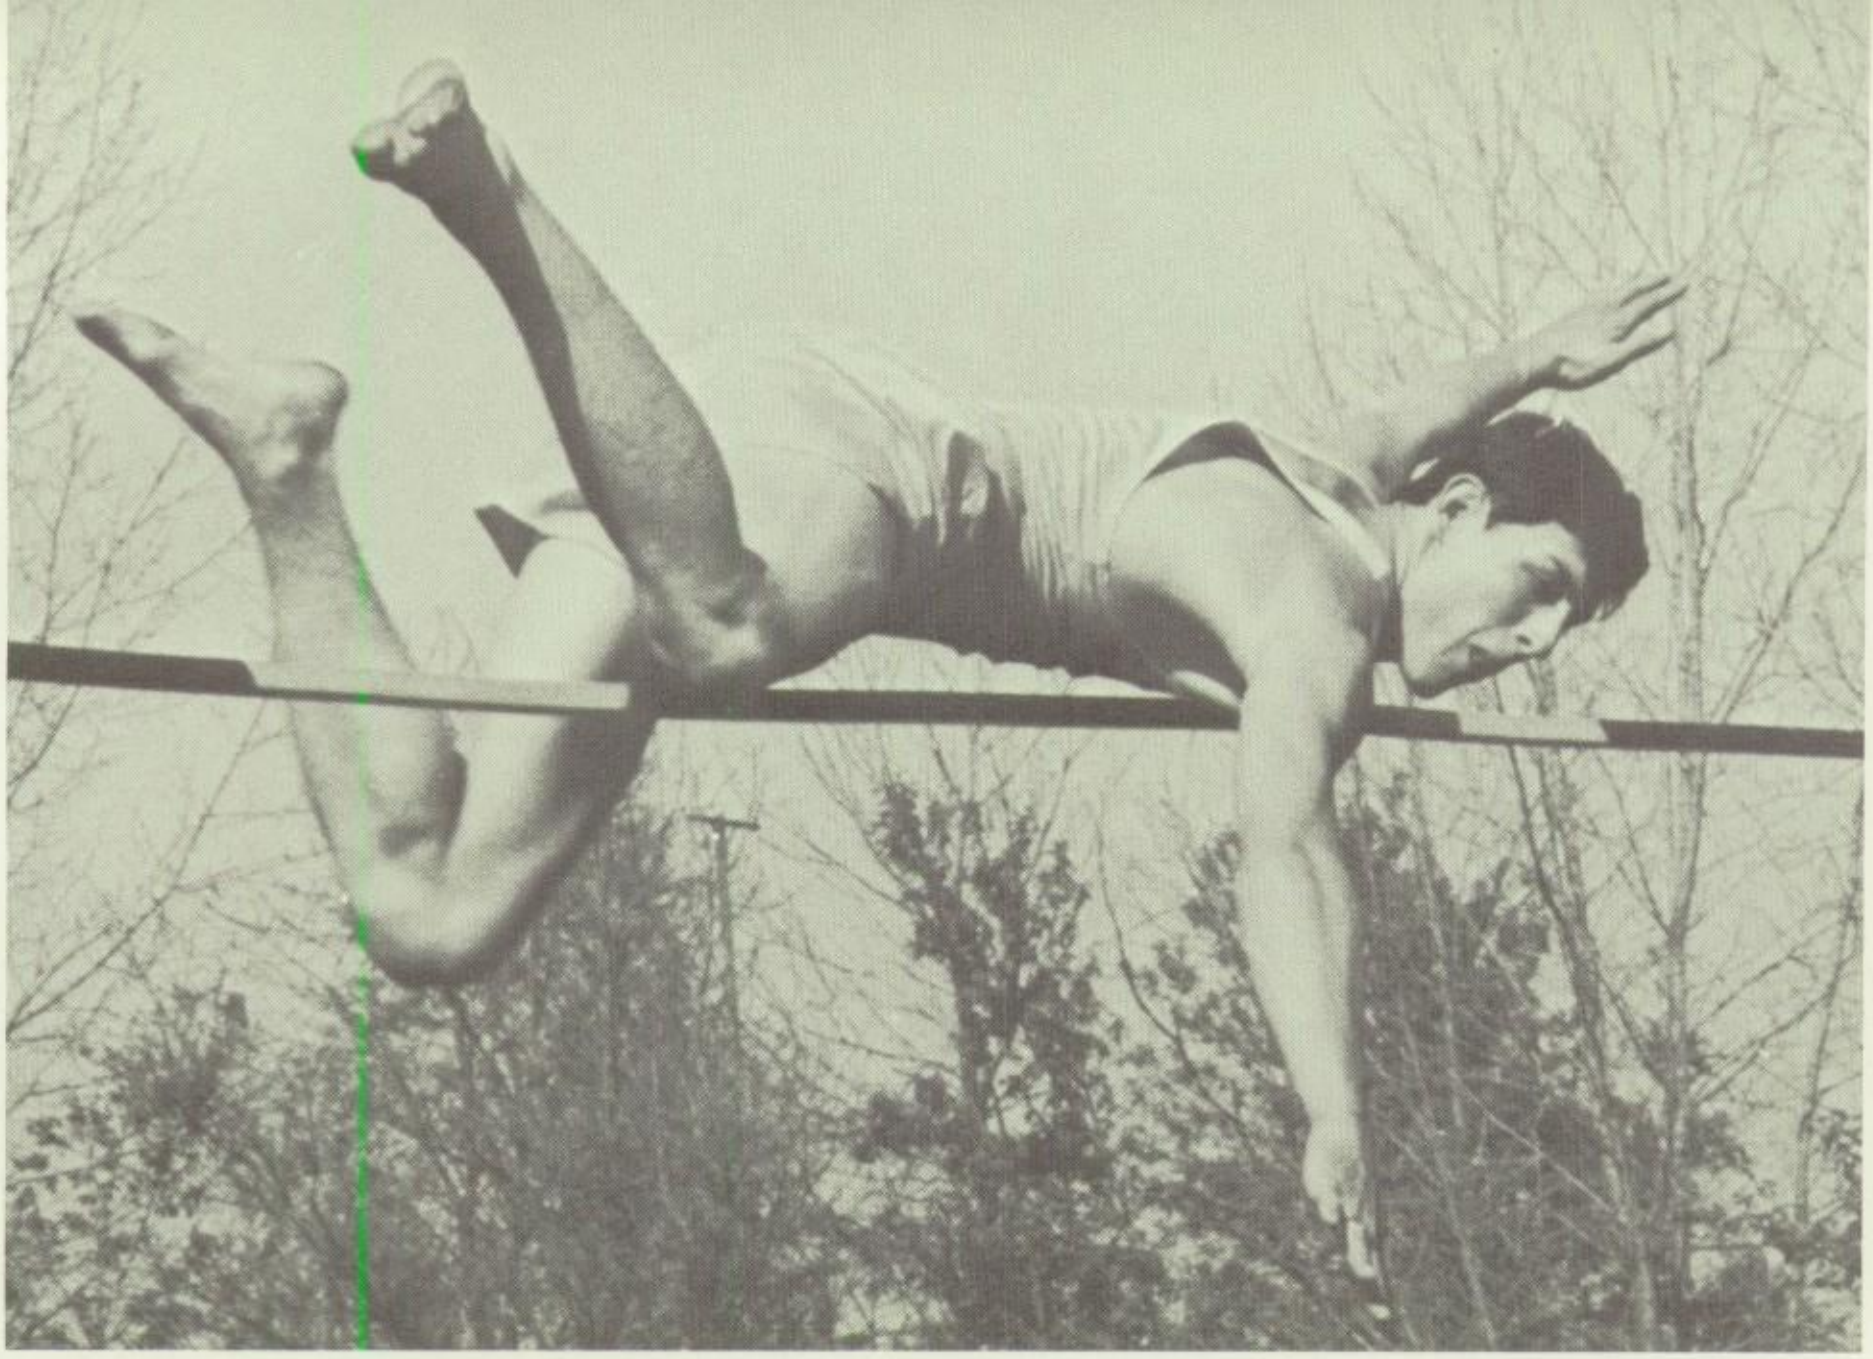
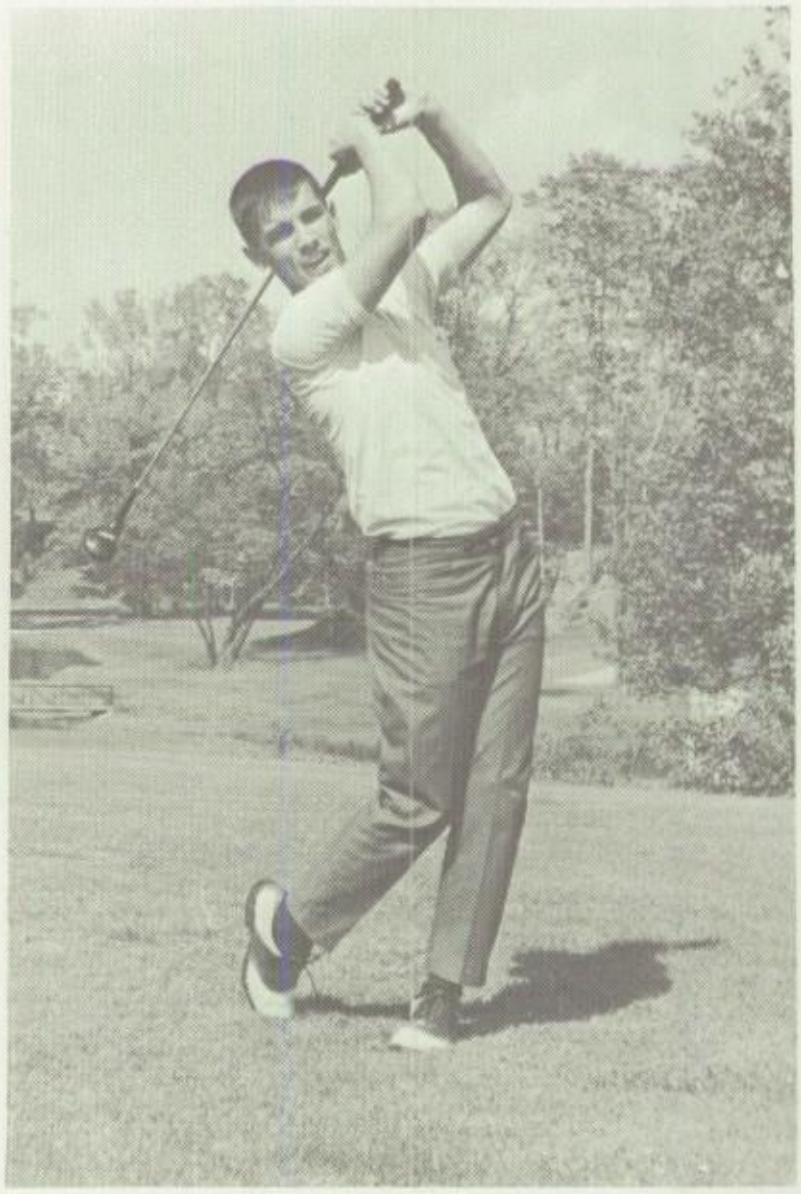
Run on by, boys



Run on by. That is just what Clark Sorenson did. He ran past everyone all spring, setting league and school records in the mile and the half-mile. In the Central Relays he placed first out of sixty-seven runners in the Class C division. His determination pushed him all the way to the State Championships.

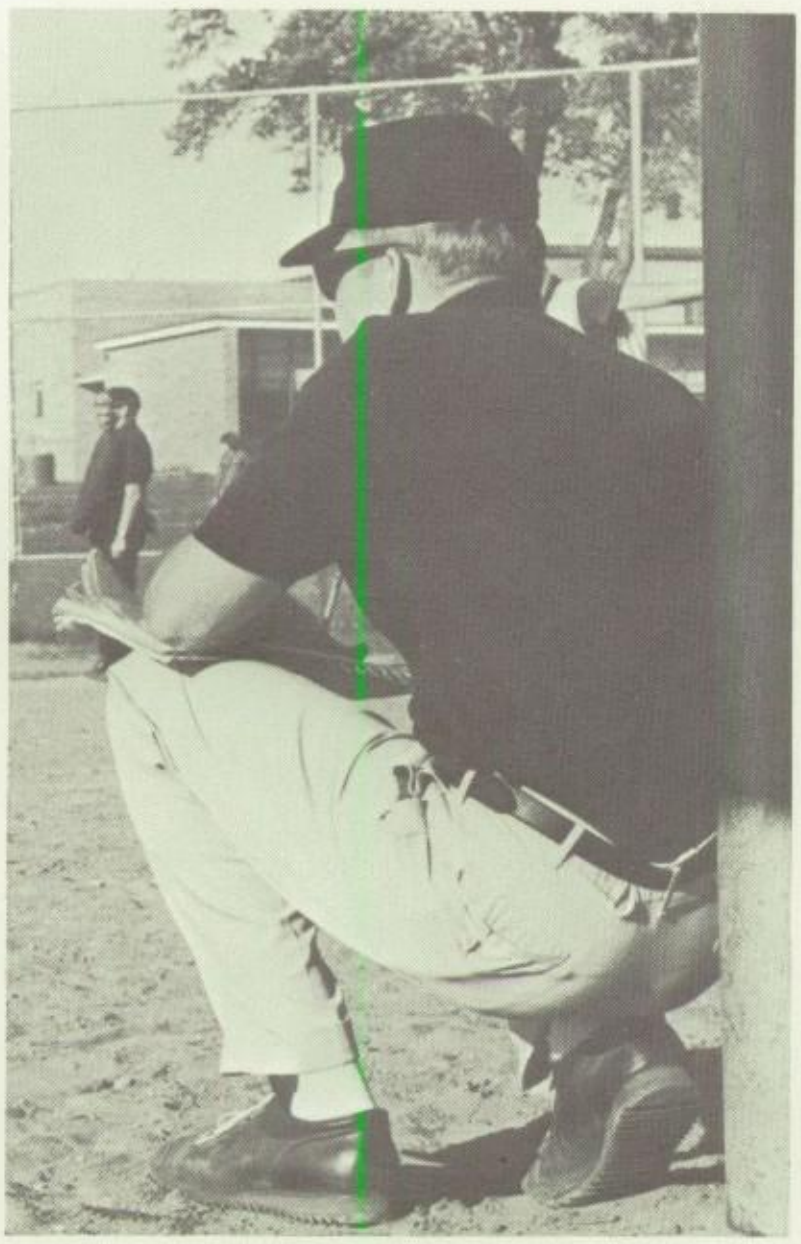
Jumping into the picture is Lee Burt, the Martian's all-around track man whose jumping and running completed the Goodrich track picture.

Hit that



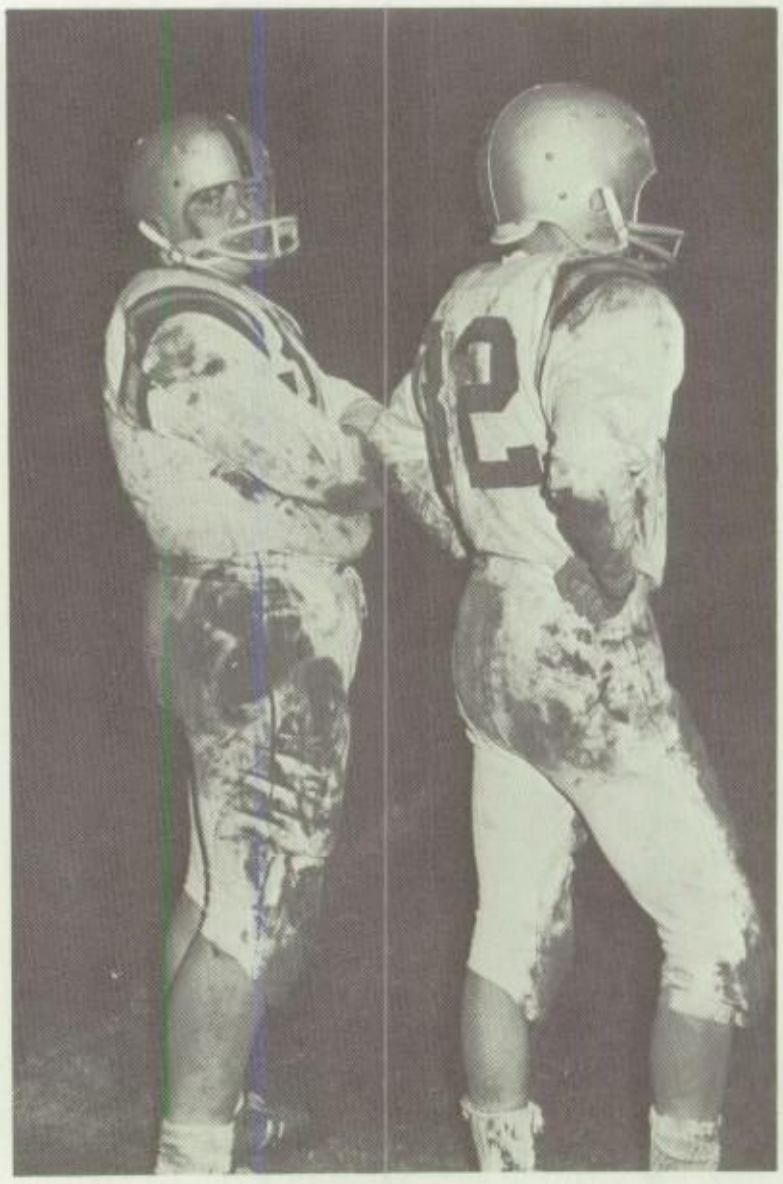
Hit that little ball, boys. They were such a hit in the Regionals that they traveled to the State Championships. Dan Hughes and Dale Herman, both sophomores, will be the basic ingredients for a fine Martian team.

little ball



Hit that little ball, boys...please. Goodrich baseball saw alot of hitting but unfortunately the other side batting. Mark Frixen, senior fireballer and Gary Allis are the foundation of the GHS baseball team.

Dribble, punt J.V. teams are on the hunt



Junior Varsity football finished a disappointing season with one victory over Genesee. They did, however, show promise for the 1970 season.

Mr. E. Torkko took over as J. V. basketball coach while Coach Wolff moved up to the Varsity position. The team defended the League Title captured by the 68-69 team.

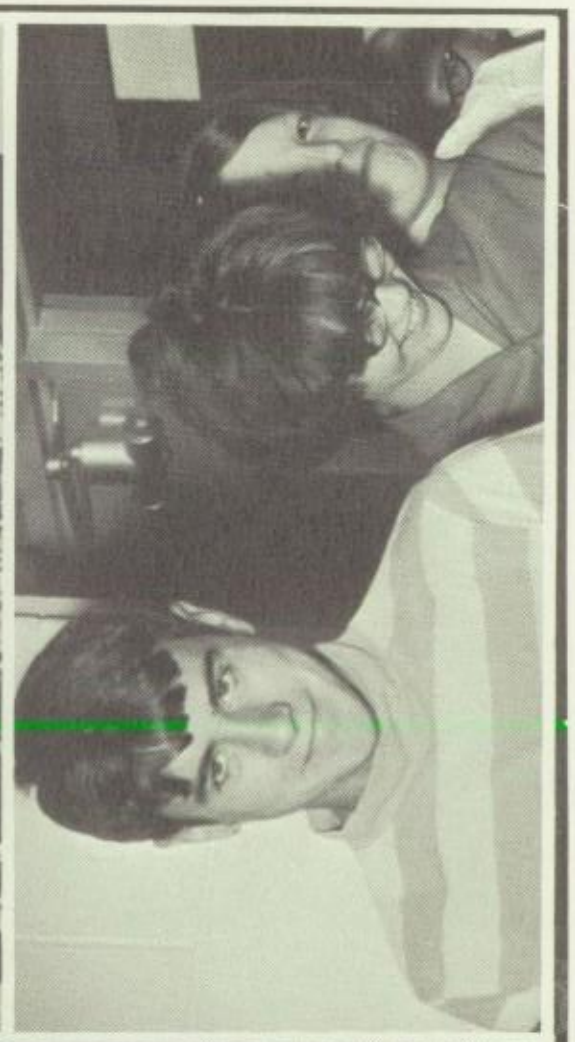
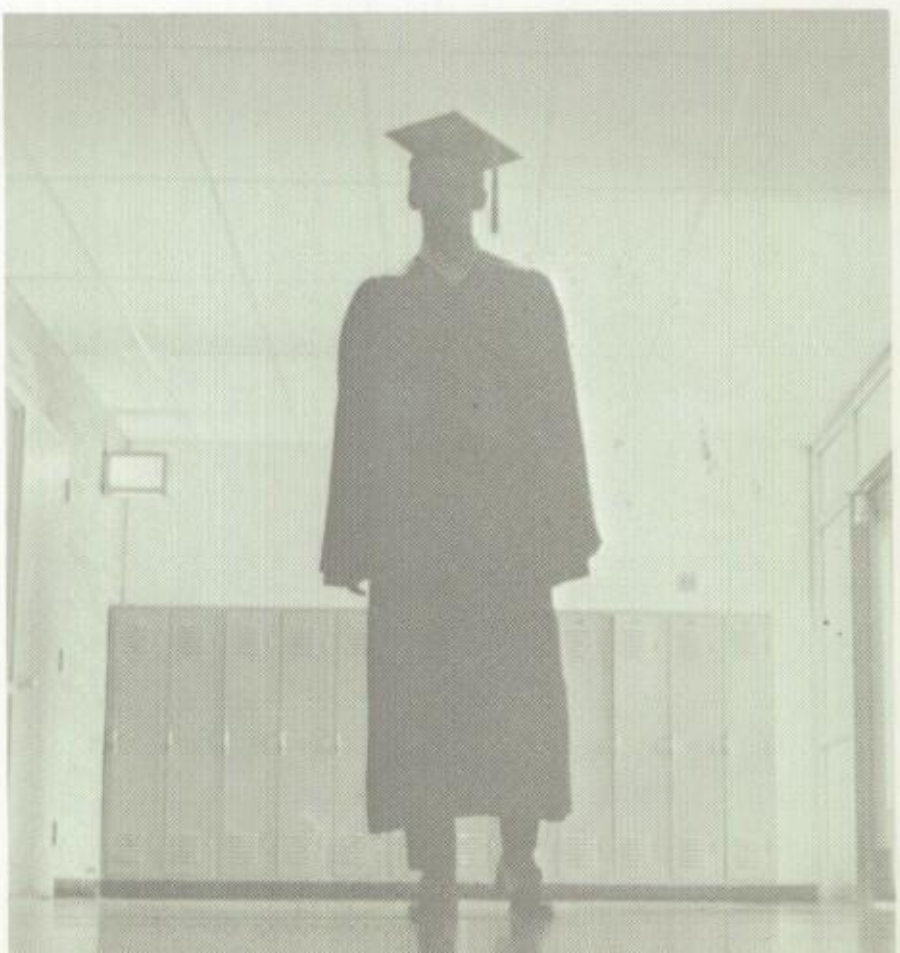
A NEW DECADE





SENIORS

The grades are getting lower, the nights are getting longer, the dates are getting later.

But from the start the seniors apply to be a college choice, travel to centers of testing, and compete for several scholarships.

Washington Club, some seniors might say, is a boring magazine sale, an everlasting sale of candies, a tedious Christmas card drive, or a dozen appetizing suppers. The club is competition between seniors, all having a goal to meet, to earn money for a trip, a celebration of graduation, and some last good time together.

Seniors at last--go to college, get married, get a job, but never forget the experience and knowledge gained.

UNDERCLASSMEN

Crowding through the hall, underclassmen fill the school. Counting down to that 'magical' Senior year, students study Silas Marner, Julius Ceaser, Glass Menagerie and finally advance to Beowulf and Hamlet. Each year holds its own appeal, whether it be participating in junior high sports, being initiated, picking class rings or getting a drivers license. Although they always seem to be running into everyone, underclassmen make up the school and do their best to keep it interesting.

ELEMENTARY

Elementary--begining to learning, the very start of knowledge, a development of individualism.

Grades 1-6 are generations' youngest. Their learning centers around drawing, addition, and subtraction, history and geography. More today than ever are the younger children in the grades being exposed to modern techniques of teaching a particular subject. A donation such as the listening post by the FTA provides wider insight in learning.

There were several new teachers this year. The students experienced class changing. New portable buildings were added for fifth and sixth grades.

COMMUNITY

The center of the community's children is the school. The students are proud that the parents of Goodrich students support the school through various clubs. Band parents brave fall weather to sell concessions at football games. Newly formed Athletic Boosters buy equipment to the sports program. Merchants support many of the students projects, such as Feed-a-Family.

A big thank-you to the community of Goodrich for its support and concern.

REALTOR

ROYER

Dick Royer and staff would like to take this opportunity to wish you each much success in the future and to extend "Congratulations" for your academic achievement and contribution to our Community thus far.

Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed.

This page has been set aside to acknowledge everyone that has helped in making this book. First, I'd like to thank Mr. Maioho, our patient advisor, who managed to keep a cool head and who miraculously added extra days to our deadline. Next, a big thanks to the staff -- first, those whose experience greatly benefitted us, and second, those who patiently learned how to rush. The very biggest thanks to Debbie Chew, copy-editor, who put in long hours and late nights. The night before a deadline always found us hard at work. When sweaty fingers slide off typewriters keys, when black and white photos look blue and green, and when the worst possible disaster only makes you laugh, it was time to go to sleep, but we kept on until all the last minute work was finished.

Nothing could have been completed without the photography skills of Doug McAbee, who shot and developed most of the pictures, and Tom Phelps, who took many last minute shots. And a very special thanks to all the people that went out of their way to be helpful: Mr. Fredrikson, who came out and opened the school for us during vacation; Mr. Pintek, who saved us by mailing a late deadline; Mr. Figg, our yearbook representative, who understood our problems; and Lynn Flood and Debbie Ulshafer, who helped us by typing. Finally, we acknowledge the University of Detroit's yearbook clinic which, at least, pointed us in the right direction.

Yes, this is the year nineteen hundred and seventy. It can be thought of as the close of the sixties or as the new dawn of every new day in the new decade.
